

Speech and Language Therapy Training Sessions

I offer expert Speech and Language Therapy training for professionals working with children and young people, including early years settings, primary schools, other health professionals and many more. Sessions cover a range of key speech, language, and communication topics, and can be delivered online or in person (London-based). Ideal for INSET, twilight sessions, or team development.

◆ Trainings we can offer

- Introduction to Speech and Language Therapy – A clear overview of what speech and language therapy is, supporting staff to make appropriate referrals to SLTs
- Bilingualism – Understanding and supporting multilingual learners
- Autism & Social Communication – Strategies to support interaction and inclusion
- Gestalt Language Processing (GLP) – Supporting staff to understand the Natural Language Acquisition (NLA) Framework and strategies to implement it
- AAC (Augmentative & Alternative Communication) – Tools to help every child find their voice
- Speech Sounds – Spotting and supporting speech sound difficulties
- Language – Practical ideas for boosting understanding and expression
- Early Years Focus – Supporting communication through play and daily routines
- Primary School Focus – Classroom strategies that work for all ages
- Bespoke Sessions – Tailored training to meet the specific needs of your team or setting

◆ Online or In-Person (London)

- Flexible timing to suit your team
- Bespoke sessions available on request
- Discounted rates for partner settings

All sessions are informed by years of hands-on experience in early years and primary settings, previously delivered within NHS and education teams across London. Training is grounded in evidence-based practice and includes references to current research.

Speech Therapists at Kate Mills Therapies keep their knowledge current through ongoing professional development and training, ensuring the latest research and best practices inform every session.
